YEAR AND CENTRE	DATE
YEAR 2 Centre 1 Centre 2	**26 February 2026**

HOMEWORK SCHEDULE

	Monday	Tuesday	Wednesday	Thursday	Friday
Subjects *Subjects that will have homework*	FAL: Afrikaans Practice for Assessments				English: Complete short comprehension Due date: 06/03/2026 CASS topic Test 1: Prepared Reading and Comprehension Date: 05/03/2026

IMPORTANT NOTICE:
All work completion will be noted in the Student Planner in addition to the Homework stated above. Work completion results from absenteeism and incomplete classwork during the day. Please make sure to check and sign the Student Planner daily.

Though students are provided with enough time to note down homework and work completion in the Student Planner, we request that parents encourage their children to participate in this process too. Educators write the homework on the board before the lesson and, thus, students must copy the same in their Student Planner.

ACADEMIC INFORMATION

Subject: English

English language- This week learners explored instructional texts and how to read and follow instructions correctly. They learned about the features of instructional texts, including headings, steps, commands, and flow charts. Learners identified and used command words such as *put, check, wash,* and *keep*. They practised reading flow charts, ordering instructions using numbers, and rewriting them into numbered steps. Later in the week, learners followed instructions for simple experiments, identified sequencing words (*first, second, then, next, lastly*), and answered comprehension questions. They also created their own simple instructional flow charts.

PRE-PRIMARY AND SCHOOL

English Grammar and writing

This week learners focused on verbs and past tense. They practised identifying verbs as doing words and changing them into the past tense by adding –ed or –d. Learners also worked on writing a recount. They learned to sequence events using First, Then, after that, Finally and wrote short recounts about exciting experiences using correct past tense verbs.

English Phonics

This week learners focused on the 'oa' and 'oo' sounds. They learned that 'oa' makes the long /oa/ sound (boat, goat) and that 'oo' can make two sounds — long /oo/ (moon) and short /oo/ (book). Learners practised reading, sorting, and writing words with these sounds and used them in simple sentences.

English Reading

This week learners read *Tom and the Silly Goat* and *Milo's Moon Adventure*. They practised fluency, recognised **'oa'** and **'oo'** sounds, answered questions, and discussed key events and characters.

Subject: Mathematics

In Mathematics this week we focused on fractions and shapes. Learners learned what a half (½), a quarter (¼) and three quarters (¾) are, and how to write their symbols correctly. We also explored how fractions can represent division. For example, when we have one whole pizza and divide it into four equal parts, each part is called a quarter.

We completed a fun and creative project on "Strange Submarines", where learners looked at different 2D shapes from above and identified the possible 3D shapes they form.

The class also completed their first CASS Unit 1 assessment on Numbers to 100. I am very proud of the effort shown.

Textbook Pages

46 - 51

Subject: Science

In Science this week we learned about how we can care for our environment and the different ways in which people can change the environment, both positively and negatively.

Learners practiced making predictions, carrying out observations, and recording their findings using pictures and simple tables. This helped them develop their scientific thinking and recording skills.

We also completed a project on “Our School Environment”, where learners explored ways in which we can have a positive impact on our surroundings.

Textbook Pages

31 - 33

Subject: Global Perspectives

In Global Perspectives this week, we continued learning about food. Learners enjoyed a sensory lesson where they tasted different types of fruits and vegetables, describing the flavours, textures, and smells. It was wonderful to see them exploring new foods with curiosity and confidence.

We also discussed what helps to create a healthy mind. Learners identified different strategies that help them feel happy and calm, such as deep breathing, talking about their feelings, and taking quiet time when needed.

Subject: Computing

In Computing this week, we completed practical and workbook activities on algorithms . where learners matched the algorithm given to them to a set of towered blocks.

Next week we will be working with debugging and learners will learn how to debug programs

Subject: FAL Afrikaans

In Afrikaans this week: We continue with the days of the week and Assessment prepation

Homework:
Reminder of their upcoming Assessment.
Listening and Speaking Assessment On the 2nd March 2026 See song and document attached
Afrikaans Homework Year 2 term 1.pdf

Subject: FAL French

In French this week: We continued with our numbers. Please note that the learners have homework and it should be returned on the **5th March 2026,** they would have had 5 days to complete. The learners are just colouring in. The learners will be sent with the FAL books to complete the homework.

Speaking assessment **2nd and 5th March 2026**

Year 2 Speaking Assessment preparation.pdf

Subject: FAL isiZulu

In isiZulu this week, we are still learning about **numbers**. Learners are practicing how to count from **1 to 10** in IsiZulu.

A video on numbers has been uploaded on **Teams** to help learners practice at home. Learners are encouraged to watch the video regularly and practice counting to strengthen their understanding.

Year 1 To Year 4 End of School Day Collection Arrangements

The gates open at 13h50 for Year 1 to Year 4 students to be collected. It is important that all Year 1 to Year 4 non-aftercare students are collected at their classroom waiting areas by 14:30.

If a student has an older sibling or is doing sport on the designated sport/swimming days, Year 1 to Year 4 non-aftercare students will be moved to the Orion Campus for collection. All students must be collected within 30 minutes of their sports/swimming sessions concluding. Thereafter, a late collection penalty is due and will be invoiced.

Communication And Microsoft O365 Login Details

Our wonderful staff will communicate directly with parents on WhatsApp groups, personal telephone calls, parent personal email addresses, in the student planners and, most important, in person. If you have any questions, please contact your register educator directly in order for them to assist you.

Should you wish to access the student academic platforms, you can use your child's O365 login details. In the event that you have lost/forgotten the login details, please send an email to the IT Team (support@jacaint.com) and they will provide the login details for your child's O365 account.

However, the above Subject details provide you with the exact work covered during the past week.
